Shelf Life & Environmental Storage Requirements

General Guidelines

Storage

Avoid storing cards, print ribbons, varnish overlays, laminate ribbons, and cleaning supplies in the following places:

- Direct exposure to sunlight
- Areas with high temperatures and high relative humidity
- Areas with nearby heat source
- Areas where chemicals and other solvents are stored

Usage

- Use cards, print ribbons, varnish overlays, laminate ribbons, and cleaning supplies according to directions in card printer user's manuals.
- Avoid touching the printing surface of cards, ribbons, overlay varnish, and laminate ribbons as it may cause printing voids.
- Avoid any contamination during the loading of cards, ribbons, overlay varnish, and laminate ribbons as contamination can cause print quality issues.
- Improper storage can cause varnish overlays and laminate ribbons to pre-activate (laminates will become sticky).
